PREVENT

From the attic to the
basement, excess
moisture can cause
indoor air to become
stale with musty odors,
especially in small areas
like bathrooms, closets
and laundry rooms.

It's easy to rid your house of musty odors caused by
stagnant air, by attracting and trapping excess moisture
with **DampRid**.

The secret is **DampRid's** moisture absorbing all-natural,
environmentally-friendly crystals.

DampRid Hanging Moisture Absorbers
continuously work to maintain the ideal
humidity level—which eliminates musty odors
and prevents them from occurring.

The **refillable 10-and-a-half-ounce canister** is a
highly economical way to eliminate stale, musty
odors in bathrooms, laundry rooms, bedrooms,
and basements.

For large spaces over extended periods of time,
**DampRid's 4-Pound Hi-Capacity Moisture
Absorber** is ideal.

To prevent and eliminate musty odors—
choose the **DampRid** product that's right for
you, at the **Moisture & Mold Solution Center**.

Wherever excess moisture and musty odors
are a problem, **DampRid®** is the solution!
